Please reduce prices by 30% please. I need it reinforced. It's so hard to get gold and you can't watch commercials all day... Yes, it's a good game, but all ships are quite difficult to get, now I'm in episode 13, surviving duty, with the 5th floor and surviving the free daily planes, can even play the game, because I'm destroyed by 1 TIER 5 rocket so add a prize shooter or do what you did in battleships, battle, battle put shooter who use cash to get it when you unlock it! get paid to get gold and buy weapons (no one has time to play custom missions for 10 years and just be in episode 13) Love this game, but can you reduce the price of weapons cause too hard to get. I can't finish a level because the ship is too expensive. Instead of coins you can make it too dollars. It's too hard to get a gun. As a new player, it's a great game! However, controls are not too new for players for someone who does not want to use tilt controls. You can make a control scheme that uses the D pad to move left forward and backward, the up and down arrows, and to look around. So at first I started playing it and I really liked it, so I spent money to buy a shooter and disable the ads, but I did not disable the ads, now I did not think it was so bad, so I continued to play, but after episode the stings become practically impossible, that you have to spend as a 50 gold for shields and health to pass through lv. So because I couldn't get past the missions and I liked the game I spent on a good plane, but even with the plane I couldn't get past the levels. So I went to upgrade my shooter and saw the dismantling button and wondered what did it, so I pressed it and without any signal of what would happen that appeared and said you would get 6 parts and then I realized that I had just sold \$15 shooter for parts that are useless, so I stopped playing, oh and all the time it still had hi ads! I love your game and all this and I play it every day! But I wanted to offer something, because when I'm on the force field that keeps you from leaving missions, it gets me stuck every time I get caught. And that makes me vulnerable to regular and intercepting missiles and usually kills me and I feel it's unfair. So I was just wondering if instead gives you 5 or 10 seconds warning to return instead of the force field, thank you and have a nice day!
